

Acute Knee Service

The Acute Knee Service (York Hospital) is now available on e-Referral Service (e-RS) so referrals to this service will no longer be accepted by post or fax.

Referrals into this service should now be sent via the Integrated Care Gateway to the RSS, referred as URGENT,

Speciality: Orthopaedics and Clinic Type : Knee.

This service is for **Urgent referrals only** - Complex knee conditions - Knee injury, locked knee, patellar dislocation, acute haemarthrosis, knee ligament injury or trauma.

Please make it clear in the referral that it is for the **Acute Knee Service**.
